Hot Weather and Sun Safety

June 2022

Dear Parent / Carer

With warmer weather arriving recently, we are giving children at school lots of advice to help keep them safe and comfortable. Please could you reinforce these messages to the children and make sure they are provided with the items below. If there is any difficulty providing these, please give me a call, via the school office.

Children need to bring to school:

- **A water bottle (containing water)**
- **A hat**
- **Sun Cream Protection (applied before coming to school)**
- **Sunglasses (optional)**

While at school, children should:

- **Drink water regularly**
- **Wear their hat outside, during playtimes**
- **Sit in the shade if they are beginning to feel too hot**
- **Tell an adult straight away if they are feeling poorly**

We have spare sun cream protection at school, which children can use if they need to be 'topped up' or if it has not been applied at home. The vast majority of children will be able to apply it themselves; for younger children staff may need to help them.

If you have any questions, please contact the school office.

Many thanks

Mr Jones, Deputy Headteacher
